

Bellacroft Wellness Centre

Healing for

Family Pets Horses
Livestock Service animals

At Bellacroft we have lovingly brought together the best in animal healing practice with:

Gentle Reiki Healing to release anxieties and trauma, especially rescue animals. Also use before and after surgery.

Scalar Healing. Great for calming, joint pain reduction, injury recovery and greater energy.

Frequency Healing. Drug free way to deal with infections and joint immobility.

Where to find us? We are in the Shopping Centre in Mudgeeraba. Healing is at a pet-friendly coffee shop opposite our centre or in the nearby park. We can also come to you anywhere on the Gold and Tweed Coasts.

Caring for an animal is like caring for a friend

SPECIAL SERVICES

Performance healing for horses. Both Reiki and  Scalar are powerful healing energies that invigorate cells at a deep level. The result is positive improvements in power, stamina and performance. It is your secret edge!

Birthing. Healing for animals during pregnancy and at the birthing time can release stress, anxiety and ease the birthing process.

Travel Calming. Pets may be anxious about travel, especially when having to be in a travel carrier or trailer for several hours. Healing calms animals into a tranquil state which can be maintained for the duration of the trip.

The Vet Trip. Pets and animals are often very anxious when visiting the vet, especially if a previous experience was unsettling. Use healing just before the visit to settle them for an easier time at the vet.

Mobile service fees are charged on a 30-minute basis. Minimum service time is 60 minutes. Travel time is extra. All service fees include GST. Larger animals and horses will require a longer healing time interval. Services fees also include hygienic equipment cleaning and consumable items such as gloves, safety glasses and aprons. Details and current prices on the website.
